MS10

marina series

— Wall mount —

Housing

Heavy-duty cast aluminum ballast housing is attached to a cast aluminum decorative lens holder. Electrical compartment is isolated from optical chamber.

Optics

Anodized aluminum reflector surrounds the lamp; uniform light is diffused through opal lens.

Finish

Hot solvent degreasing and cleaning process is performed before painting. Powder coated paint is applied on marine grade aluminum to prevent any possible decay caused by salt spray.

Maintenance

Reflector must be removed for access to the ballast.

Decorative cover options

Type "G" (grid)

Type "N" (none)

Type "EL" (eyelid)

Type "ELS" (eyelid/strand)

| Model # | Cover | HID(wattage) | CFL(wattage) | Voltage** | Color | Options | |
